Commanding Officer
164th Support Group
Phoenix, Arizona 85008

1. A distinctive insignia (badge) for the 164th Support Group is authorized. It is described as follows:

DESCRIPTION

A gold color metal and enamel device, 1 1/16 inches in height consisting of a gold five-pointed star upon the apex of a scarlet enamel chevron all above a gold Phoenix bird rising out of gold and scarlet flames and with upraised wings in front of the chevron and touching the points at either side of the star; draped from the ends of the chevron a curved blue scroll bearing in gold letters the inscription "WE'LL BE THERE."

SYMBOLISM

Buff (gold) and scarlet are the colors used for Support. The chevron, suggestive of a roofline or gable, is used to symbolize the support function and the star at top represents command and control. The mythological Phoenix Bird is the namesake of the city of Phoenix, largest city and capital of Arizona, where the unit is located.
