MEMORANDUM FOR Commander, US Army Public Health Center, 5158 Blackhawk Road, Aberdeen Proving Ground, MD 21010

SUBJECT: Distinctive Unit Insignia for the United States Army Public Health Center

1. The distinctive unit insignia redesignated effective 1 October 2016, for the US Army Public Health Center, was **originally authorized** for the United States Army Public Health Command by letter AAHS-IHS, The Institute of Heraldry, 11 March 2013.
2. The description and symbolism of the design are as follows:

DESCRIPTION

A Silver color metal and enamel device 1 3/16 inches (3.02 cm) in height overall consisting of a shield blazoned: Vert, a pile reversed Murray, thereon a demi-gear wheel enarched of four cogs surmounted throughout by a torch Argent, entwined with two serpents of the first, the torch enflamed Gules, and surmounted by a spear erect, point and shaft Proper; all within a bordure Silver. Beneath the shield a curved Maroon scroll inscribed "UNA SANITAS" in Silver letters.

SYMBOLISM

The shield represents protection of the health of the Army family. The green reflects the color associated with the Medical Corps during the last of the nineteenth century and the maroon represents the current color associated with Army medicine. The triangle, a shape that indicates strength and stability, here represents the triad of "One Health" concept: people, animals and environment. The spear tip within the triangle represents the organization's mission which happens in peace and war and often before the first combat soldier sets foot in a combat zone. The serpents entwined around the spear represent the Rod of Asclepius, symbolic of the medical arts and humanitarianism. The cog wheel and torch are elements honoring the legacy of the predecessor organizations. The torch also signifies the light of learning and education which are the foundational missions of the organization. The motto translates to "One Health."
